Dear Mr. McElligott:

DoD – VANDENBERG AFB; AREAS OF CONCERN FINAL REPORT EVALUATION SHEETS, TASK ORDER 0005, MAY 2006, REPLACEMENT PAGES

The Central Coast Regional Water Board (Water Board) and Department of Toxic Substances Control (DTSC) have reviewed the subject Final Report Evaluation Sheets replacement pages. The submittal was prepared by Montgomery Watson Harza (MWH), dated May 8, 2006, and received May 9, 2006. The change pages consist of a revised AOC Summary Table, Evaluation Sheet for AOC-147, and Appendix I (Response to Comments). Changes were made in response to electronic comments concerning AOC-147 from DTSC (dated February 21, 2006) and the Water Board (dated March 2, 2006). In an April 27, 2006 conference call, DTSC, the Water Board, MWH, and the Air Force concluded that additional site investigation is necessary at AOC-147. Our comments on the Task Order 0005 submittals are outlined below. Since comments below are minor in nature, we consider the report final, and request revised replacement pages be submitted to incorporate into the Final Report Evaluation Sheets.

AOC Summary Table: Please revise the Recommendations/Summary section for AOCs 69, 119, and 198 to indicate these AOCs were closed in a State letter dated July 14, 2005.

AOC-147 Evaluation Sheet: We concur with the recommendation to further delineate TCE-impacted water under Building 8401. Please submit a detailed work plan with schedule to accomplish proposed work.

If you have questions regarding this letter, please call **Carol Kolb**, of the Water Board, at (805) 542-4625, or **Quang Than**, of DTSC, at (714) 484-5352,

Sincerely,

for Roger W. Briggs
Executive Officer
